# 12<sup>th</sup> ARTERIJA INTERNATIONAL FESTIVAL OF VISUAL ARTS 19 – 22 / 8 / 2021

## NO SECURITY DEPOSIT : IN MEMORIAM HEIKO DAXL

*The focus of this year's Festival is art within science, technology and various aspects of contemporary music and sound in the media environment. At the same time, the Festival is dedicated to Heiko Daxl (1957 – 2012), one of the pioneers of new media art in Europe, and one of the organizers of the Media-Scape, the International Media Art exhibitions, symposia, screenings and performances, held in Novigrad from 2006 till 2009. We therefore invited some of the artists who participated on the Media-Scape, and some other artists who are close to its topics and goals, but above all we want to show a part of the Museum collection created by the donations of Media-Scape artists.*

Curated by Jerica Zihlerl, in collaboration with Ingeborg Fülepp, Centre for Innovative Media, Academy of Applied Arts, Rijeka
